Subject: Powerline placement meeting(able to moody)

0000102576

To: Arizona Corporate Commissioners.

From : RRATL (rittenhouse residents against transmission lines).

Re: Sept. 29and 30th meeting location.

Dear Commissioners,

We are a grass roots organization fighting the ill advised proposed placement of high tension transmission lines in our community along highly populated routes. We have collected 2500 + signatures against SRPs preferred route.(we project to have 5000+ signatures by the end of the year.

We strongly object to the next meeting location on Sept. 29th and 30th. The meeting location is approx. 35 miles from our town, which makes it very difficult for the residents of our community to attend on weekdays. This is the same old wear them down tactics that have been practiced for many years. The decisions made at these meetings will affect 1000s upon 1000s of voters here in Queen Creek.

We look forward to your reply and help in this matter.

Sincerely,

John Upshur, RRATL Chairman
